

SUNDAY BEST DAY

Bakers Would Make This a
Wheatless Period in Nation.Declare More Bread Is Wasted
Than on Other Days.

WHAT ABOUT 5 PER CT. GRADE

It Is a Serious Question With
Many of Large Mills.Has Demand for "War Bread"
Blown Up in Country?

The proposal, made recently by bakers' interests, to make Sunday the legal wheatless day all over the country has been endorsed by bakers' interests and is under consideration by the national food administration, according to advices received in Topeka today from the national association of bakers.

It is claimed that on Sunday more bread is wasted than any other day, and that the saving of wheat could be effected if this waste was eliminated. Besides, an order of this kind would give the baker, like every other business, a six-day-a-week working schedule and permit him to rest on the seventh day.

The association of bakers has also taken up the question of what disposition can be made from the 5 per cent grade of flour which is setting to be a serious question with many mills. It was believed at first that a considerable volume of this grade could be used in "war" bread, but it now develops, says the Northwestern Miller, that the demand for "war" bread has almost entirely blown up.

Customers are showing more and more reluctance to eat the various grades made from different mixtures, and bakers say that the sale of this bread is steadily declining. Preparation of the 5 per cent grade can be run into export flour about the only market apparently left for it is in making graham bread, crackers, pancake flour, ginger cookies and similar articles.

GARDEN SCHOOL MEET

First of Series of Conferences at High
School Auditorium Monday.

A series of garden school meetings will be held in the auditorium of the Topeka high school, under the direction of an executive committee consisting of Superintendent Wilson, Commissioner Porter and A. D. Folger, agent of the Shawnee County Farm bureau. The lessons have been so arranged that each division of the garden will be discussed at a session. The first meeting will be held Monday evening, February 11. Preparation of garden soil and plating the ground will be subjects.

These meetings are planned in the interests of all who wish to interest themselves in aiding to produce healthful food products, which may be authorized from local gardens, and not be a burden to transportation nor subjected to several profits.

An earnest invitation is extended to all who desire to come, and especially the boys and girls.

Relief from Eczema

Don't worry about eczema or other skin troubles. You can have a clear, healthy skin by using a little Zemo, obtained at any drug store for 35c, or extra large bottle at \$1.00.

Zemo generally removes pimples, blackheads, blotches, eczema, and ringworm, and makes the skin clear and healthy. Zemo is a clean, penetrating, antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

MASONIC UNIT OF THE AMERICAN RED CROSS EXPANDS INTO
LARGEST AND MOST ENERGETIC BODY OF WORKERS IN CITY

A resolution urging that something be done to protect the morals of American soldiers in England was the feature of the luncheon of the Masonic unit of the Red Cross at the Masonic temple Thursday. It was an outgrowth of the Dr. Charles M. Sheldon speeches on prohibition in England that have been made in Topeka during the last two weeks. It is proposed to present the resolution of the Masonic unit to the general meeting of the Topeka chapter of the Red Cross at its meeting Saturday at the Crutcher Brothers Red Cross room.

Dame Rumor at Work
Right along with the discussion of the resolution old dame rumor was in

full sway concerning the reputed "work" done by the captains and lieutenants of the Red Cross in furnishing material for the units of the state to work with. It seems that a number of the ladies of the Masonic unit in Topeka resent the closing of the Masonic work rooms four days a week, and they accuse the heads of the organization of using their uniforms and office for parade purposes rather than for the best interests of getting the Red Cross material supply on a business basis.

The fight has been brewing for a long time and is about ready to break forth full force.

The Masonic unit in Topeka does no surgical dressing work in its own rooms but confines its activities to the

manufacture of the hospital supplies such as water bottle covers, bed socks and hospital garments. When the Masonic rooms are closed many of the ladies who work there go to the surgical dressing rooms in the stores and there do their work.

The monthly report of the Masonic unit shows that 337 articles have been made in the Masonic rooms during the month of January. The itemized list is:

Bed jackets.....300
Pillow cases.....102
Bed socks.....60
Water bottle covers.....21
Low bags.....48
Leggins.....48
Daps.....120
Operating masks.....38
Total.....537

In addition to these 337 articles the ladies have sent two boxes to Kansas and Topeka soldiers at Fort Hancock. Each box contains a sweater, a helmet, a pair of socks, a pair of gloves and a pair of mitts. This "box work" is done at home and does not interfere with the work done in the Masonic rooms.

About 130 women appear at the Masonic temple two days each week to work on the Red Cross supplies under the direction of Mrs. L. M. Jones, president of the Masonic unit. Lunches are served to all of the women workers of the unit every Thursday noon by the Masons. On the part of the president and of the lieutenants in charge of the various tables where the work is done, there is no tendency to shirk the actual work and do only the directing.

CHRIST COMING?

Woman Predicts He Will Re-
turn to Earth in 1926.Encke's Comet Precedes the
Star of Bethlehem.

WILSON PREPARES THE WAY

Like Caesar He Is Warned To
Beware Ides of March.Many Believe Second Coming
of Son of Man Is Near.

Washington, Feb. 9.—"History is repeating itself. Encke's comet appears once again and tells us that Woodrow Wilson, the great teacher of governmental affairs, is doing his work and preparing the way.

"Soon the Star of Bethlehem will appear. In 1926 or 1928. Then the Christ.

"Once before this happened, Caesar was the great governmental teacher then, but unfortunately he was cut down in the midst of his work. These are the statements of Miss Isabel Holbrook, national lecturer of the Theosophical society, who is here lecturing for the local lodge of that organization.

"A soothsayer said to Caesar, 'Beware the Ides of March.' He did not heed.

"I say to Mr. Wilson: 'Beware the Ides of March.' Woodrow Wilson is the great teacher of governmental affairs, who is preparing the way for the Christ, just as Julius Caesar prepared the way 2,000 years ago.

"Encke's comet always appears before the Star of Bethlehem, which, in reality, is a cluster of stars, and Encke's comet means that the great work is being done. The teacher of spirituality and the teacher of government always come together, the latter first.

"People will scoff and perhaps they will laugh at what I am saying," said Miss Holbrook, "but even Prof. Whipple, the noted astronomer, agrees with me that a great Spiritual Teacher is coming. Not so very long ago he told me that he expected to see a great wave of spirituality come over the people in order to counterbalance the wave of materialism and commercialism which seems to engulf the people of the world. He said that he thought a great Spiritual Being would appear to even up the scales and bring this wave with Him."

Many Believe Predictions.
The beliefs held by Miss Holbrook are held by thousands throughout the world, and in fact they have organized an order called "The Order of the Star of the East," the members of which all pledge themselves to work for the coming of this Great Teacher and help make the world better for his coming. According to their belief, the better the world becomes, the quicker the Christ will appear for a second time. Among these people today there is a firm belief that this Christ will appear shortly.

Woodrow Wilson is doing the same work for the reappearance of the Christ that Julius Caesar did for the Christ 2,000 years ago. Caesar was cut down before he finished that work, and Encke's comet appeared at the time. Shortly afterward the Star of Bethlehem appeared, and then the Christ. It is time for this to happen again. It is written."
